

ARIVAZHAGAN R

Frontend Developer | React.js | JavaScript ES6+ | Tailwind CSS

rarivazhagan781@gmail.com | +91 9159573620 | linkedin.com/in/arivazhaganr07 | github.com/Arivazhagan-cell

PROFESSIONAL SUMMARY

A results-oriented Frontend Developer with experience building scalable, accessible web applications using React.js, JavaScript (ES6+), and Tailwind CSS. Proficient in RESTful API integration, client-side state management with React Hooks, and UI/UX optimization for responsive, multi-browser interfaces. Consistent record of shipping production-grade features ahead of schedule with measurable performance gains.

TECHNICAL SKILLS

Frontend Stack: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design, Cross-Browser Compatibility

State & APIs: React Hooks (useState, useEffect, useContext), RESTful APIs, JWT Authentication, Axios

Backend / DB: Node.js, Express.js, Flask, MongoDB, SQL

Tools: Git, GitHub, VS Code, Postman, Agile, CI/CD Basics, Data Structures & Algorithms, OOP

PROJECTS

Job Searching Website

React.js | Tailwind CSS | JavaScript | REST APIs

github.com/Arivazhagan-cell

- **Architected** a modular job board with 15+ reusable React components (JobCard, FilterPanel, SearchBar, Pagination), reducing UI inconsistency and cutting feature iteration time by ~30%.
- **Engineered** real-time keyword search and role/location filter logic via controlled state and memoized event handlers, streamlining user task flow and cutting time-to-result by ~45%.
- **Boosted** Lighthouse performance to 90+ through code-splitting, asset lazy-loading, and Tailwind CSS purge configuration, achieving sub-2s initial load on mobile networks.
- **Designed** a fully adaptive UI with Tailwind breakpoints, guaranteeing pixel-consistent rendering across Chrome, Safari, and Firefox on desktop and mobile viewports.

Instagram Clone — Full-Stack Social Media App

React.js | Node.js | Express.js | MongoDB

github.com/Arivazhagan-cell

- **Replicated** Instagram's core interface using a modular UI architecture, delivering Feed, Story, Post, and Profile views in React.js with centralized state management via custom hooks.
- **Optimized** media rendering and feed responsiveness through conditional rendering, skeleton loaders, and progressive image delivery, reducing perceived latency by ~35% on slow connections.
- **Secured** all user sessions with JWT-based authentication and protected REST endpoints via Node.js/Express.js, enforcing role-based content access without exposing unguarded routes.
- **Deployed** a scalable MongoDB data layer with schema validation and collection indexing, achieving sub-200ms query response for posts, likes, and comments under concurrent load.

EXPERIENCE

Software Developer Intern — MaGa Tech Gramam Pvt Ltd

Dec 2025 – Jan 2026

- **Developed** 4 production-ready Flask REST API modules for a voice-enabled prescription platform, completing all deliverables within a two-month sprint cycle as a core team contributor.
- **Reduced** critical parsing errors by 40% across 100+ test cases, raising prescription field-extraction accuracy to 95%+ through targeted debugging and structured error handling.
- **Constructed** a rule-based clinical safety engine covering 15+ drug-allergy conflict scenarios, improving patient safety outcomes and reducing compliance risk by an estimated 30%.

EDUCATION

B.Tech — Artificial Intelligence & Data Science

2022 – 2026 (Expected)

Francis Xavier Engineering College, Tamil Nadu

CERTIFICATIONS

NPTEL – Joy of Computing Using Python | Infosys Springboard – JavaScript Programming | Skillrack – Python Programming (2022)
